<<< **Savings** on materials alone with additional savings on labor and no sales tax or delivery charge

Benefits

- Everything you need in one box
- Eliminates a heck of a lot of material
- Easy to install
- Does not require electrician
- Lamps only need 1" clearance
- Lamps generate negligible heat
- 22 AWG wire goes most anywhere
- DC voltage safe and simple
- The ultimate in sustainability
- Extremely energy efficient
- 50,000 hour LED life
- New system features added regularly
- Great solution where access is limited
- Packages starting as low as \$1350

Eliminate trips to your supply house and have a Conturrent Ready Pack sent directly to your job site or shop.

Conturrent lighting now offers a battery backup system that powers your lights when your utility can't. That package can be further upgraded for a modest cost to include solar power so that your lighting can come off the grid and be free night and day.
